

Sambath HUL

Flutter Developer

I am **Sambath HUL**, a 22-year-old **Flutter Developer** and a recently graduate from the **Cambodia Academy of Digital Technology (CADT)**. I have nearly two years of hands-on experience building mobile applications using **Flutter** and **Firebase**, including publishing apps on the **Play Store**. Passionate about building seamless user experiences and clean code, I'm seeking to join a forward-thinking team where I can contribute to building scalable and impactful apps.

Educations

Recently Graduated with a **Bachelor's degree in Computer Science**, specialized in **Software Engineering** from the **Cambodia Academy of Digital Technology (CADT)**. Gained strong foundations in software architecture, mobile app development, and collaborative project work using modern technologies.

HARD SKILLS

- **Flutter:** State management with provider, repository and service, modern and clean UI, local storage, performance optimization.
- **Firebase:** Experienced with Firestore, Authentication, and Cloud Messaging.
- **Google Cloud Console:** Managing Firebase and API integrations for app deployment.
- **GitHub:** Source control, collaboration, GitHub CI/CD.
- **Quality Assurance (QA):** Performing functional and UI testing on company app.
- **Postman:** Testing and debugging RESTful and Json Serializer APIs during development.
- **Figma:** Inspect and implement design specs for accurate UI development.

Experiences

BookMeBus Co., Ltd.

June 2024 - Present

Flutter Developer

- Contributed to the development of **BookMe+**, a mobile app for event e-ticketing.
- Implemented core features that allow users to browse events, purchase tickets, and make secure payments through **ABA Payway** integration.
- Set up the project using **MVVM architecture**, ensuring a **clean, maintainable, and observable code structure**.
- Create **test case spread sheet**, **test applications**, **build** and **belease** Android app to **Play Store**.

CamMob Co, Ltd.

January 2024 - April 2024

Flutter Developer Internee

I used flutter to develop a mobile app. During this period I learned a lot from the company such as: team work, experiences from senior, learned more technologies, and gain more knowledge on flutter development in real environment.

Soft Skills

- **Problem-Solving:** Debugging and optimizing app logic efficiently.
- **Collaboration:** Working with designers and backend developers.
- **Communication:** Clear documentation and progress updates.
- **Adaptability:** Fast learning new tools and technologies.
